Subject: Elimination of SSO's

I propose the elimination of the waste water treatment plants in Tega Cay as the solution to sewer spills going into Lake Wylie. These plants have continuously spilled sewage into our beautiful lake since 1995. There have been 22 spills from January to May 2013 as reported to DHEC. As in the BP case, this would be done at the expense of Utilities, Inc. not the consumers of their product.
I look forward to your response.
